

Dimensional Practices Workshop Inquiries

Nice to meet you - who are you and what dimension are you from? If they don't give you the right dimension tell them, 'no thank you, step away please!' then telepathically call in a guide from whichever dimension has been designated.

I'm happy to receive your energy signature now...

What happens in this dimension?

What is one thing that is important to know about this dimension?

How will you teach me about this dimension?

How would you like to commune together, going forward?

Thank you for being such a great guide for this dimension.
