ORIENTATION & Welcome ZOOM - Angela Bixby Facilitating

I'll review and address all of your questions about the program, processes, Development Circles, resources, etc. Connecting, Yes & No Questions, Energy Signature – all of these primary processes that will become what you do here will be reviewed. We will review the Foundational Basics and I'll address any and all questions that you may have as you begin this powerful, and fun journey!

1/11/27 Monday: Weekly Development Circles -- begin and run weekly through 12/11/27.

1/11/27 - 12/09/26: All of your 1:1 sessions for the year are to be scheduled between these dates. Feel free to schedule in now for the year, knowing that the sessions can be altered throughout the year as needed.

1/15/27 Friday: Office Hours begin. Held from 10-11 am ET on most Fridays.

What are Office Hours and what happens here each week? You bring any questions or topics that you would like to, to have your questions or topics addressed and discussed during the hour. This is not a space for getting readings - it IS a space for confirmation of what has been coming up in your process. Many members attend for the vibes only! You are welcome to show up during the hour whether you have questions or not. Preference is given to those who have either emailed or texted me questions throughout the week to address on OH as well as to those showing up live with questions. They are recorded and the recordings will go up onto the CPP Member Resources Page afterwards.

AutoWriting Workshop

Angela Bixby Facilitating

Angela has had a particular and fun way that she teaches Automatic Writing for the past number of years. Angela will channel in three, distinctly different guides, from varying dimensions, for you to experience and write with. Using writing as an expression of spirit is a powerful tool to have in your psychic skills toolbox. If you are unable to attend live, know that the recording will go up on your resources page to consume later.

3/05, 3/12, 3/19, 3/26 Fridays: Office Hours 10-11 am ET

4/22/27 Thursday: 1-3 pm ET Remote Viewing Workshop

Angela Bixby Facilitating

Angela will take the group on a journey to a few different targets. We will have discussion after each target, then go back into state to remote view the next. Remote Viewing is the process of specifically 'viewing' – with all of your psychic senses not just 'sight/clairvoyance' – any person, place, object or place in time. I look forward to teaching you this very accessible and tangible application of your psychic skills!

Angela has been working with Past Life Regression longer than she has been a professional Psychic! Enjoy her style of teaching and regression in this workshop.
